SUMMARY

Software developer with expertise in front-end and back-end development.

EXPERIENCE

TEACHING FACULTY

COMPANY APTECH 2024 to 2026

As an experienced educator at APTECH Center, I teach a wide range of front-end and back-end technologies, empowering students with the skills needed to excel in modern web development. I specialize in front-end technologies such as HTML, CSS, JavaScript, Bootstrap, jQuery, and UI/UX principles, focusing on creating intuitive and responsive user interfaces. In back-end development, I cover PHP, Laravel, MySQL, and version control with Git and GitHub, providing students with the tools to build dynamic web applications. Additionally, I teach full-stack development with MERN stack technologies including Node.js, Express.js, and MongoDB, enabling students to develop robust and scalable applications. Through hands-on projects and real-world examples, I foster a collaborative learning environment and ensure students are prepared for successful careers in software development.

INSTRUCTOR/WEB DEVELOPER

COMPANY GEXTON INC AND EDUCATION 2026 to present

Worked as an Instructor, teaching front-end, back-end, and Python development with a strong focus on practical learning and real-world projects. Delivered training in HTML, CSS, JavaScript, PHP, MySQL, and related technologies. Also worked as a Web Developer, building and maintaining MERN stack applications. Developed RESTful APIs, implemented authentication, and followed best practices using Git and GitHub

- LARAVEL
- NODE JS
- EXPRESS JS
- MYSQL
- MONGO DB
- GIT/GITHUB

EDUCATION

BS INFORMATION TECHNOLOGY

ISRA UNIVERSITY HYDERABAD 2019 to 2024

Bachelor of Science in Information Technology (BSIT) Isra university. During my academic journey, I gained a solid foundation in computer science principles, programming, software development, and systems analysis. My coursework included in-depth studies of web development, database management, networking, and information security, which have equipped me with the technical skills and problem-solving abilities essential for a successful career in the IT industry.
